  Get our toolkit for building better searches.
- **Efficient Reference Management**
  Get the most out of Mendeley, Zotero, EndNote and Co.
- **Best Practices in Research Data Management**
  Get the most out of your data management plan.
- **Roads to Open Access: Green or Diamond?**
  Choose the right publishing model for your paper.

il Menù

Secondi Piatti

These menu items really showcase the skills of our chefs...

- **Systematic Literature Searching**
  Learn how to systematically retrieve all the relevant publications for your topic.
- **(Critical) AI Literacy**
  Unlock the potential of using generative AI for your work.
- **Scientific Writing**
  From idea to submission: the scientific writing process.
- **Research Metrics and Rankings**
  What you need to know about h-index, impact factor and alternative metrics.
- **Search for Maps and Geodata**
  Discover gateways for your spatial research topic.
- **Where to Submit your Work?**
  What to consider when choosing a publisher or journal.
- **Search more efficiently in PubMed and Embase**
  Understand search techniques like MeSH, EMTREE and more.

Dolci

Most of our desserts are served hot, some of them might also be a bit spicy...

- **OpenAlex**
  Discover an open catalogue of scientific papers, authors and institutions.
- **Who Can Pay for My Publication Fee?**
  Learn how to fund your Open Access publications at UZH.
- **How to cite in LaTeX**
  Find the best way of adding references to your document.
- **Predatory Publishers and Conferences**
  Have you just been invited to give a keynote lecture at a "famous" conference, or was this just a scam?
- **CC BY & Co – Creative Commons**
  Understand copyright on research works, published figures and tables.

Our chefs are happy to take your orders!
