Open Access Funding Support

Institutional Account Program

Institutions participating in the PLOS Institutional Account Program administer payment for partial or full publication fees for their institutions' authors. To be eligible, authors must be a corresponding author affiliated with the institution or agency in the Institutional Account Program (fully paid or restricted).

PLOS Global Participation Initiative (Low- and Middle-Income Country Assistance)

The PLOS Global Participation Initiative (GPI) provides fee assistance to authors whose research is funded primarily (50% or more of the work contained within the article) by an institution or organization from eligible low- and middle-income countries. If the author's research funder is based in a Group 1 country, the PLOS GPI will cover the entire publication fee and there will be no charge. If the research funder's country is part of Group 2, the PLOS GPI will cover part of the publication fee and the remaining publication fee will be \$500 USD.

Group 2 PLOS GPI country authors who need to request additional support should apply for PLOS Publication Fee Assistance instead of the PLOS GPI. View PLOS GPI for additional information. This is subject to eligibility review.

PLOS Publication Fee Assistance (PFA)

The PLOS Publication Fee Assistance (PFA) program is intended for authors unable to pay all or part of their publication fees and who can demonstrate financial need.

Authors must apply for PFA during article submission. Requests made during the review process or after acceptance will not be considered. Authors cannot apply for fee assistance by email or by writing to the journal editors.

Authors should exhaust all alternative funding sources before applying for PFA, including the author's or co-author agencies and research funders. Funding disclosure information provided by authors will be used as part of the PFA review process.

Applications will be considered on a case-by-case basis. To apply, complete the application during the submission made within 10 business days. Information about an applicant's application for fee assistance will not be disclosed. Decisions will continue to be based solely on editorial criteria.

View PFA for additional information.

Institutional Account Program

The institutions listed below have agreed to be invoiced directly and will cover the **full** publication fees of PLOS journals for their **corresponding authors**. The institutions reserve the right to accept or reject who they will fund per their internal funding policies. For publication fees in which the institution does not accept responsibility following their review, PLOS will invoice the authors individually. Please note that some UK Institutions will only provide Open Access funding for publication costs associated with research projects that are funded by Research Council UK (RCUK) or Wellcome Trust grants.

To be eligible, you must be the **corresponding author** affiliated with the institution. Please check your institution's Open Access policy by clicking on their account link in our list of participating institutions: <https://www.plos.org/institutional-account-participants>
