

Publish Green Open Access with ZORA

Workflow: How can a publication be self-archived/second published on ZORA following the Green Open Access* path?

Go to Sherpa/Romeo
<https://v2.sherpa.ac.uk/romeo/> or consult the journal website for the self-archiving policy, so you know which version may be archived in ZORA.

Search the publication on ZORA (www.zora.uzh.ch) and click on "*Suggest update or corrections for this item*" at the bottom left.

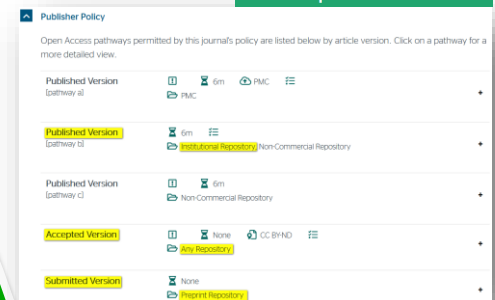

After logging in with SWITCH edu-ID, you can attach the publication in the new window and send it to the ZORA team

Users (please log in): [Suggest update or correction for this item](#)
For submitters/editors: [Edit metadata](#)

Any embargo periods will be set by the ZORA team.

Alternatively, send the accepted manuscript or the published version to the ZORA team oa@ub.uzh.ch

Sherpa Romeo

Green
Open Access

Accepted Version/Postprint
<ul style="list-style-type: none">• peer/editorial reviewed• without publisher's layout• text identical with final version• mostly archivable with embargo period
Published Version/Version of record
<ul style="list-style-type: none">• proofread• in publisher's layout• final published• text identical with accepted version

*The [Green Road to Open Access](#) refers to publish your article in a closed-access journal and to self archive the publication in a repository. The UZH provides you with the institutional repository ZORA (www.zora.uzh.ch) for this purpose.
